Guidelines to Recruiting Companies at CDAC's Common Campus Placements

We appreciate your interest in fulfilling your staffing needs with our PG Diploma programmes students, offered by C-DAC. We are pleased to offer you our recruitment assistance for your esteemed organization.

Schedule for CCPP- August 2025:

CCPP- August 2025 Schedule		
Sr. No.	Activity	Date
1	Campus Commencement	August 21,2025

To ensure fairness to all stakeholder and increase efficiency, C-DAC prescribes a set of policies and guidelines for its Common Campus Placement Program (CCPP). Both the recruiting company and C- DAC's commitment to these policies and guidelines foster a recruitment environment that has proven its mettle over decades. The CCPP of C-DAC becomes available to the company upon their expressed readiness to comply with the policies and guidelines outlined below:

1. The participation in to the CCPP starts with either the company contacting C-DAC or C-DAC inviting the company with intent to fulfill its staffing needs through CCPP. The readiness of the company to participate, expressed in writing (letter/email), to C-DAC and confirmation of the same by C-DAC initiates the staffing process for the company in the indicated cycle/schedule. The expressed readiness implies acceptance of the policies and guidelines set forth in this document and/or as prescribed and informed by C-DAC from time-to-time.
2. The company must provide the details pertaining to its recruitment processes through the prescribed online form or the Company Recruitment Details (CRD) sheet sent by C-DAC as the initial step towards providing the campus placement participation confirmation. The information provided by the company in the CRD (online/offline) is deemed declared to be complete and correct in all regards. The company must abide by the provided job profile, role, location, offer(s), etc.
3. C-DAC placement team will contact the company for scheduling and fixing the campus placement process dates. The scheduling decision is based on the various subjective and objective parameters that C-DAC uses to ensure the best offers to our students. C-DAC reserves its right to change the schedule based on emerging situations. The decision of C-DAC in determining the schedule to host the company shall be final and binding upon the company.
4. Based on the details provided in the CRD (online/offline), the list and profiles of the available students will be provided to the company. C-DAC will strive to provide this list at least three days prior to the company's scheduled campus placement drive. The company acknowledges that the details provided may contain private and privileged information of the students and shall use them solely for the purpose of staffing needs through CCPP and keep the details confidential as per applicable rules/laws in this regard.
5. The students' details provided are as informed and declared by the students. Upon becoming aware of any discrepancy in the provided details and/or document(s) submitted by the student to the company, the company must inform C-DAC immediately and shall on-hold the selection of the student until matter is looked in to by C-DAC and resolution is suggested.
6. As the CCPP is an ongoing event and the students are selected by the visiting companies in parallel each day, the list of available students is only indicative at time of its sharing by C-DAC and does not constitute any assurance of the same. The company is advised to keep its selection process short and inform C-DAC of their selections as soon as possible to avoid last minute unavailability. First come first serve selection is considered by C-DAC as parallel campus drives are scheduled.

7. The company must use their own shortlisting criteria (if any) to narrow down the list of students it wishes to test/interview. The shortlist must be submitted at least one day prior to the campus placement drive date (by 12 noon), failing which the drive may be rescheduled or canceled at discretion of C-DAC.
8. During the CCPP, the company must provide the Student's Name, PRN, and CCPP ID (given in student's profile) in all its communication regarding staffing process. Not providing the same may lead to missed communications and opportunities to students and the company.
9. Where the company wishes to hold test, it must be conducted between the hours of 7 AM - 9 AM and 8 PM - 10 PM. The company must use its own means/resources to conduct the test and C-DAC may not be able to provide any assistance in this regard.
10. The interviews of shortlisted students will take place in person / physically at C-DAC placement / CCPP venue on the day and during the hours informed by C-DAC. The company must use its own means/resources to conduct the interview and C-DAC may not be able to provide any assistance in this regard.
11. Where test/interview is to be conducted, for any student-side requirements such as hardware/software/dos-donts/etc., the company must provide clear set of requirements and instructions to C-DAC for informing the student well in time (at least a day prior). The links for test/interview should also be shared with C-DAC at least a day prior to schedule. Towards ensuring a fair talent acquisition process, all shortlisted and available students must be allowed to undertake the test/interview.
12. During the test/interview process, the company must provide attendance and selection related information to C-DAC staff as soon as possible in writing in C-DAC form/ via email to C-DAC. The company may indicate a student as 'Selected' or 'Waitlisted'. The selected students will be informed and removed from further CCPP process. The waitlisted students will be allowed to appear in other companies' selection drive and may be made available to the waitlisting company on basis of availability. The company must communicate the selection with C-DAC only and must refrain from communicating the same with students.
13. The company shall update the information pertaining to various stages of the selection process to the C-DAC assigned coordinator during the placement drive. This information assists the CCPP coordination team in making timely decisions regarding selection and keep the student informed accordingly.
14. The company must share the final selection list to C-DAC exclusively in writing (C-DAC selection form/official Email-ID) immediately after completion of the selection drive. The company must provide the Offer/Joining Letter to the selected student within 15 days of the selection with information to C-DAC. As this is important life stage for the students, the company must make an offer to join to the selected students as soon as possible.
15. Where the company fails to provide the selected student an Offer/Joining Letter within the stipulated time, the student may be allowed to rejoin the CCPP process and may not be made available further to the company. Further, C-DAC reserves its rights to debar the company from current/future CCPP and/or take any suitable action as it deems fit.
16. Post selection confirmation to C-DAC, companies may contact selected student for joining formalities. The joining process is between selected students and the company at their own discretion.
17. Placement activities usually will not be carried out on Saturdays, Sundays, or public holidays during the CCPP.
18. C-DAC reserves its right to terminate the engagement with the company in the CCPP and/or rescind any selection of its students by the company at its own discretion or upon determining that a violation of the prescribed process, policy, or guideline has occurred by the company. C-DAC's decision in this regard shall be final and binding.

Thank You!
